

# QUBE Discovery

**QUBE is a unique digital solution.**  
**It delivers surprisingly **high improvements in productivity****  
**It enables senior decision-makers to **learn to thrive****  
**in our highly-competitive, complex,**  
**ambiguous & fast-changing world**

---

## ***Why do a QUBE Discovery?***

- To develop a deeper understanding of how ER (Enhanced Reality) will transform productivity and education.
- To socialise learning and gain a common understanding of the digital opportunity.

## ***What is it?***

- QUBE Discovery is a short series of events on QUBE designed to provide a valuable concrete outcome.
- The topics/ activities covered will be proposed by you.
- The events will be designed to answer the questions & concerns you raise.

## ***Why invest time on Discovery?***

- QUBE uses an Enhanced Reality (ER) environment designed for baby-boomer executives but cutting-edge for everyone else.

ER environments are rich not like an app or constraining webinar. Just like real life, ER mimics the way decision makers work together. Just like any rich experience such as learning to drive a car, you can't just jump in and zoom off like Lewis Hamilton.

On QUBE it takes "three strikes and you're in!" It takes three short visits to

- feel completely comfortable and in control.
- You will be able to fully understand how other organisations are increasing their productivity and business performance by up to five times and how not to be left behind
  - You will begin to understand the value of a digital solution which is aimed specifically at senior decision makers which allows it to become a real way we work here.

# QUBE Discovery

## Your commitment:

Week	Activity
-4	Invite colleagues/ stakeholders. If necessary, engage with your IT Team and provide them with <a href="#">due diligence information</a> <sup>i</sup> . Provide email addresses so QUBE entry-passes can be issued.
