

# QUBE e-facilitator course

## Why should I be interested?

Harvard Business Review published an article titled, “Executive Education is Ripe for Online Disruption.”

That is what **QUBE** is, the NEXT BIG DISRUPTIVE THING in Learning & Development. **QUBE** is a unique blend of learning, application on a collaborative social media platform.

We call it **Learn+DoWare**. If you want to be part of the movement or ahead of the game you can join one of our courses to learn how to teach, coach and facilitate workshops on **QUBE**.

*Breakouts Working together at Whiteboard*

## What will I get out of the course?

We'll give you a chance to learn the skills & tricks and techniques for delivering engaging and immersive sessions. This will mean both, learning how to project your personality on-line and make the experience great for participants, as well as learning some of the content of the tools and techniques which Eddie Obeng has developed for success in our World After Midnight. Eddie Obeng has created hundreds of award-winning, on-line-friendly frameworks which make the learning experience practical, fun and effective - It's great for the facilitator also! This course on **QUBE** will add to and polish your skills as a coach/facilitator/educator as well.

Learn

The tools and techniques have been used extensively within Pentacle The Virtual Business School and are thoroughly proven. You can visit the Pentacle website to view the long list of FinancialTimes/ Fortune 500 client comments or take a look at the Client Wordle. **QUBE** allows participants to apply and get real value out of the learning. You can read real life case stories on the Pentacle blog <http://www.pentaclethevbs.com/News.htm> and on the **QUBE** website <http://QUBE.cc>

Do

**QUBE** is designed to enable collaboration. We call it a collaborative -learning social medium. It empowers you to do things which are difficult or impossible in everyday life, such as bringing together people, clients, suppliers, partners and data from wherever they are in the world across different continents, to participate in the passion and emotion of high-quality meetings/workshops/sessions together. You will be able to deliver projects or develop innovations without travel... It has been described as a real-life Star Trek teleporter, able to beam you up instantly to join other people and “the X-box for Business!”

You will become fluent in leading others in the virtual environment... If you are familiar with other apps, you will quickly realise that **QUBE** is more than skype, googlehangout, Secondlife, WebEx, AdobeConnect, Lync, GoToMeeting rolled into one, and surprisingly easy to use.

All the facilitation tools and techniques you need are built in, making it effective and comprehensive as a learning environment.

That's why we call it **Learn+DoWare**, not software.

Ware

## How do I find out more about how QUBE is used?

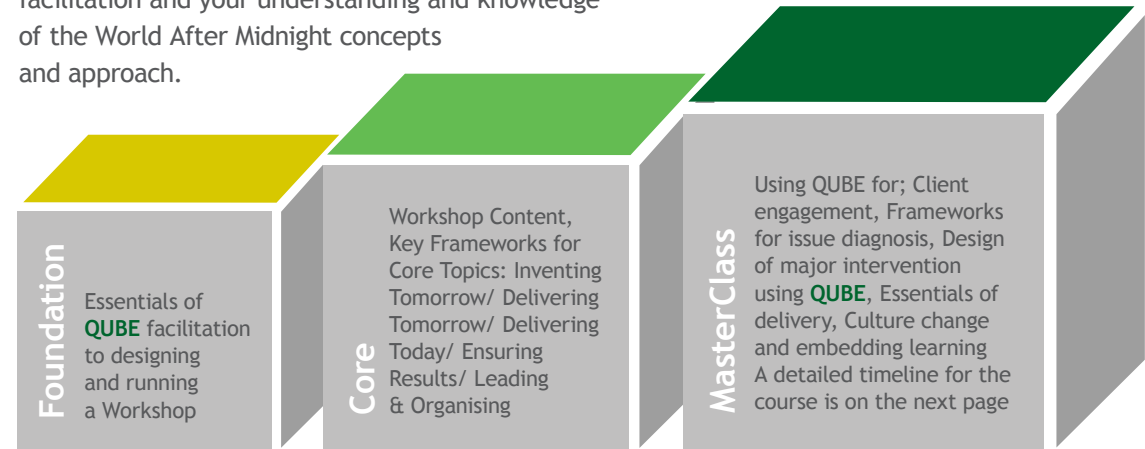

You can watch the explainer video on the QUBE website: <http://QUBE.cc> or read case studies on the Pentacle New World Times blog at <http://Pentacle.co.uk/NewWorldTimes.htm>

## Who will lead the course?

The course will be led by Professor Eddie Obeng, and an excellent team from Pentacle. Eddie is one of the best presenters in the world, renowned for his TED talks and contributions to Google Zeitgeist. The Course Director is Leonardo Teixeira and the Course Administrator Tracy Breeze who you can contact for more details on administration. You can also reach Pentacle by phone on +44 1494 678 555 or arrange to meet on QUBE at <http://Pentacle.co.uk/QUBEnow.qbl>

## What is the structure of the course?

There are three levels available depending on your current skill level with online facilitation and your understanding and knowledge of the World After Midnight concepts and approach.

## What will I leave with?

Once you're done, we'll certify you as having been on a course at Pentacle "The world's first Virtual Business School (established. 1994)" and we'll look out for opportunities to involve you in Pentacle client assignments - but of course you can also develop and run your own assignments using our materials and frameworks.

## What do I do now?
